

Module #5 Plan

CSE 310 – Applied Programming

Name	Date	Teacher
Celeste	3/10	Bro McGary

Software Description

Completing the bit of Alexandria ordering process by streamlining orders into a csv format which can be submitted to shipping easy.

Module

Mark an **X** next to the module you are planning

Module	Language	
Cloud Databases	Java	
Data Analysis	Kotlin	
Game Framework	R	
GIS Mapping	Erlang	
Mobile App	JavaScript	
Networking	C#	
Web Apps	X	TypeScript
Language – C++	Rust	
SQL Relational Databases	Choose Your Own Adventure	X

Create a Schedule

Create a detailed schedule using the table below to complete your selected module during this Sprint. Include details such as what (task), when (time), where (location), and duration. You should also include time to work on your team project. You are expected to spend 16 hours every Sprint working on your individual module, team project, and other activities. Time spent on this individual module should be at least 10 hours.

First Week	Second Week
Monday	Create a shopping cart
Tuesday	Make sure shopping cart item customizations are being collected

First Week		Second Week
Wednesday		Find how to take customizations into a csv format
Thursday	CSS, fix stylings on customizations page	Find how to submit csv to shipping easy
Friday	Complete cusomizations page by allowing png designs and text thread colors to be selected	pricings on the items making for a cart total calculation
Saturday	Complete cusomizations page by allowing png designs and text thread colors to be selected	submit

Identify Risks

Identify at least two risks that you feel will make it difficult to succeed in this module. Identify an action plan to overcome each of these risks.

Risk 1

There's a lot to do here. I may not have enough time to complete everything on my wish list.

Action Plan

If neccessary, cut the stylings and some of the bells/whistles on the customizations page. Just make sure the customizations can be gathered, taken into csv format, and submitted.

Risk 2

The shopping cart. I've never made one before, it may be a stretch.

Action Plan

Watch youtube tutorials, gather information, format my learnigns to fit my needs. Remember that it doesn't need to be fancy, but it does need to work.
